Local Delegation Attends Meeting On Recreation

Mashed potatoes mixed in with a concrete base provide an excellent surface paving for children's playgrounds.

This was only one of the many interesting facts brought to light Monday evening when more than fifty Recreation leaders from throughout San Mateo county gathered at San Carlos for a general session.

The mashed potatoes give the concrete a flexibility not usually found in wearing surfaces, officials said. Many other types of paving were also analyzed as county councilmen, committee members and WPA Recreation directors pooled their knowledge in the round-table discussions.

Daly City's representation of seven persons at the meeting was the third largest in the county, being exceeded only by the city of (Continued on Page 2)

Although the work is nearly 40 per cent completed, only 31.49 per cent of the labor has been consumed, according to the WPA district superintendent.

Madam, Make A Note Of This

Come out of the Kitchen! How? Come see how Miss Carolyn Carr of the Happy Kitchen Cooking school does it.

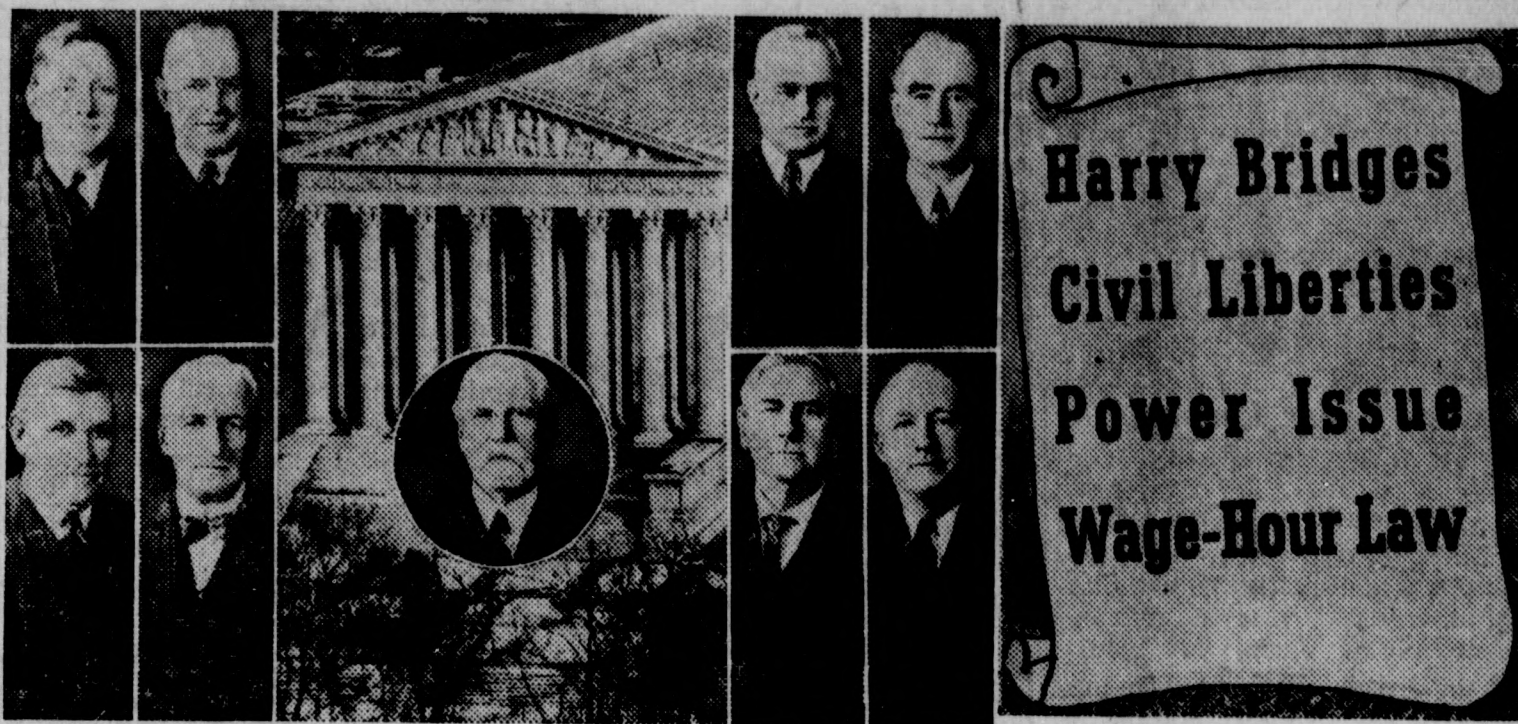

The Daly City Record is pleased to bring you the Happy Kitchen Cooking school to be held at the Daly City theatre, October 22 and 23. The sessions will be held in the afternoon.

"Most homemakers like to cook," says Miss Carr. "I do. But I also like to do it efficiently and get out of the kitchen. That is why I so thoroughly enjoy working in the Happy Kitchen. My aim is to constantly work out new and interesting dishes, but with the idea of economy of time and expense always before me."

"I have many interesting things to tell the homemakers of Daly City about the most up-to-the-minute equipment and groceries."

Be sure and check the dates. You are all cordially invited. There will be lots of prizes to take home each day.

DALY CITY FEELS WAR

(Editor's Note: Planes over England seemed nearer home this week as two stories "broke," which illustrated how closely this war comes to all of us, even though our nation is not involved.)

Falling Bombs Light Tower Bridge

London's famous Tower bridge lit by the lurid light of the flaming docks—this is the spectacle which watchful Britishers beheld

Tower Bridge

this week as German bombs continued to rain on the English capital.

A new chapter in the history of the Tower bridge is being written, perhaps its most fateful. This week's issue of Life magazine, showing a picture of the structure standing stark and bare against incendiary fires in the background, brought home to thousands of subscribers just how close the war was to the cherished landmarks of England.

To Albert Pulley, proprietor of Daly City's Central Creamery, the picture brought poignant memories. Pulley has a picture he snapped only last summer from the same spot where the Life photographer must have stood, the center of London bridge.

But where the recent news-photo shows blazing fires lit by screaming explosives, Pulley's picture shows a tranquil Tower bridge standing in the sunshine surrounded by the busy scenes of England's shipping industry.

Although peace was reflected in his picture, Pulley reported that (Continued on Page 5)

Gas Masks Not Needed Here

They brought their gas masks with them, but they won't need them in Daly City.

Fleeing from the horror of "total warfare" in England, three refugee children have found a haven of peace and safety in this community.

To other children of Woodrow Wilson school, German bombers over the British Isles may mean only a topic in current history. But to Hugh and Arfon Llewelyn and

their sister Betty, who is a student of Jefferson Union high school, the European war means havoc and tragedy, real and close.

Memories are still fresh in youthful minds—memories of the balloon barrage hanging low over their home in Liverpool—memories of their mother and little brother Billy, age 7, who were left behind in June. Memories of a German reconnaissance plane taking pictures over Liverpool.

Since then dread German bombers have swooped down over England as all the world knows. Only last week the three children received a letter from their mother describing the devastation.

Although the youthful refugees like living in Daly City, they (Continued on Page 5)

Daly City Says "Adios" To Fair

Daly City shared the limelight with other Bay area communities in bidding farewell to San Francisco's lovely Exposition this week-end.

Thousands of local residents crossed the bay Sunday to say their farewells in person to the music, flowers and lights of the magic island.

One local resident, Miss Bobbie Bruce, champion drum majorette, had her picture printed in the center of one of the last photographic panoramas of Treasure Island. The page of farewell photographs carried by the San Francisco Chronicle Monday morning showed Miss Bruce in costume on top of the Federal building.

This honor is outstanding in view of the fact that hundreds of drum majorettes have performed on the island in the two years of its existence. Miss Bruce is the official mascot of the Daly City band.

Large Crowd Attends Concert

Pleased with the large crowd which turned out to applaud their music Thursday evening, the Daly City band this week made tentative plans for another free municipal concert in November.

Several hundred persons attended the first concert in the Jefferson Union high school auditorium. Visitors from as far down the Peninsula as San Mateo were present, as well as several local (Continued on Page 5)

A substitute will be hired during his year leave, but he will be reinstated upon his return.

The board offered all of the school's facilities to the service of the U. S. Army.

"If there is any way in which the school board or I can cooperate with the government, in their extensive program, we will be only too glad to do so," said Principal James Ferguson.

Daly City-- Meet The Record

What makes a newspaper? Men, ideas, machines and a faith in the role of a free press in a free nation. These are the necessary ingredients whether the paper is a metropolitan daily or a small weekly.

Your own home-town newspaper, The Daly City Record, does not count its circulation in millions, its staff in hundreds, but—its significance to you is not lessened by this fact.

It does for you what no other agency can do—it tells the story of life as you live it in your own community. It is a friend on whom you may rely for the composite picture of Daly City—its clubs, its children, its city officials, its triumphs and its failures.

In celebration of Newspaper Week, observed by dailies and weeklies from coast to coast this week, The Record presents your newspaper staff—the way you'd meet them behind the scenes, hard at work to give you the best possible local newspaper. See pages 10 and 11.

MORE FISH STORIES

Daly City Record reporters uncovered two good legitimate fish stories this week in the South end of town.

Both the stories were of fishing trips made in John Soldavini's cruiser "Bobbie J." On Sunday John, who is general manager of Belli Motor company, went up to Benetia in "Bobbie J." and came back with a good catch. One fish weighed more than 15 pounds, and for proof John showed your reporter the fish—it was a black bass and a beauty.

Last Friday Soldavini took Rico Bollentini, proprietor of Rick's place, Dino Agresti, and John Newton on a fishing trip to China Camp, San Rafael bay. The party returned with a catch of five ranging in weight from 12 to 25 pounds.

HOW TO AVOID WAR

Aggressor nations attack only when they think they can win. Here are some facts that should discourage such ambitions toward the United States

The same bomber can fly 30% faster and farther in the United States than in Europe. It can carry 20% more bombs.

Why? Because in America we manufacture 100 octane aviation gasoline in quantity—a thing no other nation can do!

But that's only half the story. America's oil companies can expand their refineries to provide aviation fuel for 50,000 planes, or even more, faster than the planes can be built.

Is There Enough Crude Oil?

Yes, thanks to the industry's voluntary conservation program, Pacific Coast wells are operating far below capacity.

No other country in the world can even begin to support a modern mechanized army on its domestic production of petroleum. But the United States can, because we have over half the proved oil reserves of the world.

The Pacific Coast by itself can supply the Navy—even a two ocean Navy—with all the fuel oil, diesel oil and specialized greases it will ever need.

Rubber and Explosives from Oil

Synthetic Rubber, developed by petroleum research chemists, is now being produced in commercial quantities in cooperation with the large rubber manufacturers. Before our present supply of natural rubber is exhausted, the U. S. can be made 100% self-sufficient with rubber made from oil.

Explosives. The petroleum industry has signed contracts with the War Department to produce 60,000,000 gallons a year of toluene, the basic ingredient of TNT. Glycerine is being made in even greater quantities. Production of both these vital materials can be expanded to the requirements of new explosive plants as fast as the plants can be built.

The way to avoid war is to make America self-sufficient—make America strong.

The petroleum industry, on its own initiative and without government subsidy, has prepared itself to do its part without delay in a national emergency.

America's defense will never be "grounded." Petroleum will never let her down.

A report to the public on the PACIFIC COAST PETROLEUM INDUSTRY

Three-quarters of a million people in all parts of the Pacific Coast depend on this industry for their living.

Classes

SENIORS

Committees were appointed at the Senior meeting last Monday. It was decided on by the class that all members of each committee must attend the meetings or they will be automatically removed from their positions.

Chairmen named by President Norma Barker for the term are: senior ball, Howard Vierra; jinx, George Wallace; gift, Minnie Jorgensen; flowers, Deva Lucchesi; announcement, John Schauer; picture, Roy Johnston; cap and gown, Ray Humphrey and senior sweater, Violet Bullo.

STAGE CREW

This is the first time that your little reporter has had a chance to poke her nose in the assembly room and notice all the stage hands busily rushing every which way. They are busy building a new amplifier panel, a new turntable for the radio. They are rebuilding the motion picture screen with the loud speakers built in. Yep! the assembly equipment will be so dressed up that no one will recognize it.

The boys aren't stopping there, either, but are planning to install a new public address system in the senior room so that the radio may be hooked up during lunch time. All of this work is done under the supervision of Durant Mosely.

Dramatics

"Ah, Romeo!—To be or not to be, that is the question—"

Yes you guessed it—the Dramatics class is getting in practice for their annual Armistice day play. Right now the class is giving monologues and pantomimes just to get into the swing of things.

When talking to Sigfred Hansen about his class he stated, "The only veteran I have is Miss Muriel Hollingsworth, a senior, so the class is quite green, and there is a great deficiency of boys." Here is your chance, boys, to play opposite your favorite girl and maybe someday you may become a famous movie actor. Who can tell?

Sports

In Jefferson's first venture with the tennis racket, against Balboa, the team lost to the tune of 6 to 1. Friday on our own courts the eleven men fought a hard battle to bring home at least one point.

Charles Razarri and Norman Wiseman brought home all of the honors to Jefferson in their excellent tennis playing. "The boys weren't quite strong enough with their net play and backhand strokes, however, to win their matches," said Reuben Krogh, Jeff's tennis coach.

The games were lined up as follows:

Singles: Sedley, Balboa—Razarri, Jeff, 6-3, 6-1; Lucadello, Balboa—Kickey, Jeff, 6-0, 6-1; Zarccone, Balboa—Wiseman, Jeff, 8-6, 6-2.

Doubles: Senn-Rohr, Balboa—Wiseman-Sorg, Jeff, 6-1, 6-2; Has-hagen-Booser, Balboa—Glissens-Janssen, Jeff, 6-4, 6-8, 6-3; Pac-zoch-Fischer, Balboa—Zugar-Van Liew, Jeff, 6-4, 6-3; Samuelson-Wilson, Balboa—Ragni-Rentsch, Jeff, 3-6, 1-6.

When talking to Coach John Matthews, last Thursday, he stat-

ed, "On a recent check up it was found that approximately two-thirds of the boys now enrolled in the P. E. classes can swim the width of the pool and back."

Before the boys can finish their physical education training they are required to jump in feet first, swim the width of the pool twice, forty feet, and then climb out. So it looks like Jeff will have a lot of mermen before the semester is over.

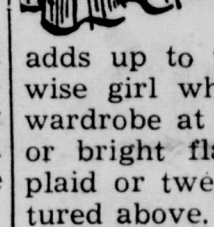

Campus Fashions

October is a month filled with sartorial significance. Its arrival means that one can definitely settle this business of a new fall outfit and make a serious visit to the department stores.

These lovely luscious and always flattering colors—tawny browns and yellows, mellow greens, warm red—are at their best against the background of autumn landscapes.

All of which adds up to the fact that it is a wise girl who includes in her wardrobe at least one wool frock or bright flared skirt, in either plaid or tweed, like the one pictured above.

To top off your smart campus ensemble pick a tweed jacket, with a lapel collar and the off center line down the front like the one pictured at the left. This jacket is the latest word in chic and with your new skirt of matching or brighter hue, you will be the smartest lass on the campus.

A perky little roller, or a cute skull cap, perched on the back of your curls, is just the thing to wear with this new campus outfit.

Say! did you know that the fashion experts are prescribing low-heeled cubits of swede or alligator, to wear with your autumn suits? They really are the last word in both style and comfort, and, for the girl who likes to dress up a little for school, are quite the thing.

A cute little freshman walked away with this week's fashion bouquet as she appeared in baize, chocolate brown and moss green. Topping her flared moss green skirt was a chic little beige and brown sweater. The smart sweater was what caught my eye; it was a darling! The back and sleeves were of beige and two stripes down the front were just the color of her deep brown eyes.

So without any further ado we hand a fashion bouquet to the smart little lass, Miss Jennie Guisti.

Studebaker Orders Prove Popularity

Paul G. Hoffman, president of The Studebaker Corporation, today announced that the corporation has received more than 20,000 orders for its new 1941 models and that September production of passenger cars was 43 per cent higher than last year. Several hundred additional plant employees were hired by the corporation to obtain the needed increase in production.

Hoffman reported that new models have met universal enthusiasm at dealer meetings held during the last three weeks. This reception has been mirrored in the volume of initial orders placed by the dealers which, he said, has more than justified the higher production schedule projected for 1941 models.

Studebaker is on display at William J. Sweeney's showroom, 6806 Mission street.

Andy Hardy Meets Debutante In New Film

Lewis Stone, Mickey Rooney and the rest of the Hardy Family, plus golden-voiced Judy Garland, come tomorrow to the Daly City theatre in the ninth and latest of the popular series, "Andy Hardy Meets Debutante."

The story takes them to New York where Andy Hardy, son of the family, is faced with a problem very serious to him but full of laughs for everyone else. Back in Carvel he has become smitten with the pictures of a glamorous New York debutante and when his one-sided romance is discovered by his home-town sweetheart and his chums, he answers their heckling by boasting that he really knows the debutante.

Judge Hardy is called to New York to defend a law case involving the Carvel Orphanage and he takes the family with him, thus forcing Andy to actually meet the debutante and bring back proof of their friendship. He gets out of his predicament but only after he has turned Manhattan upside down and supplied hilarity galore.

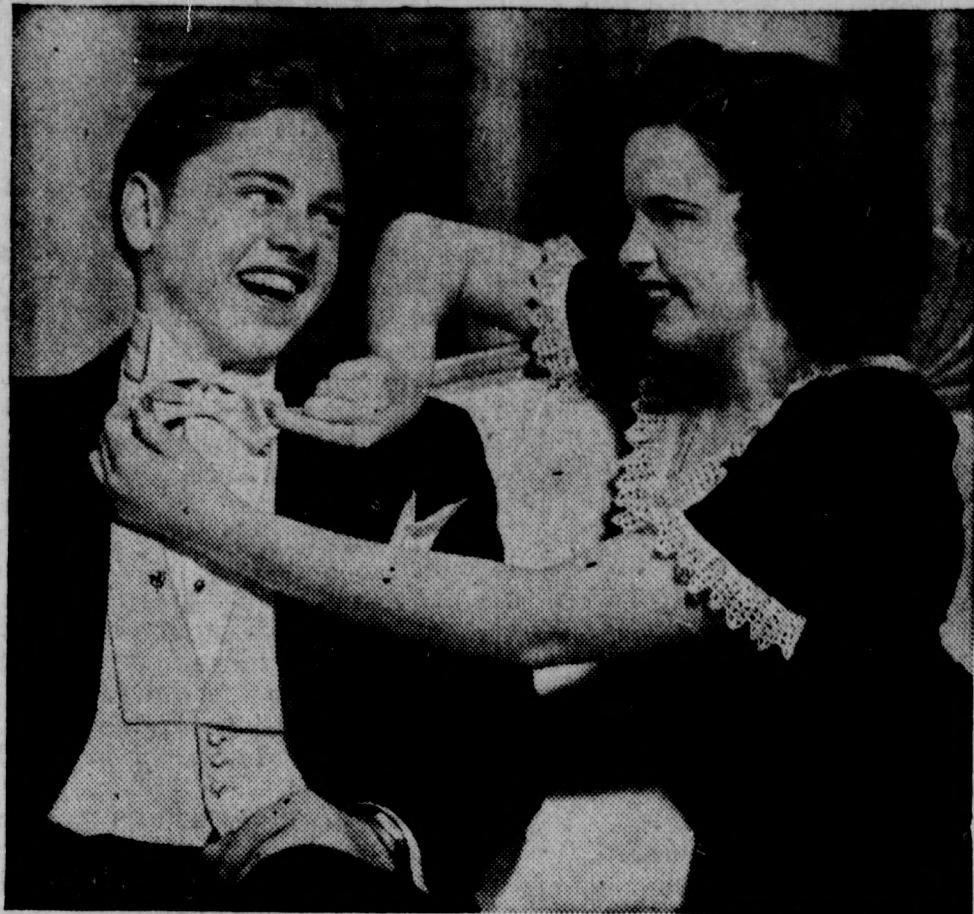

In addition to the typical Hardy Family comedy, the film has high points of drama when Judge Hardy wins his important case from the best legal brains of New York and when he takes Andy to the Hall of Fame at New York university and convinces him by example that the snubs and sneers of high society should not disturb a real American boy.

Companion feature will be the "Fugitive From Justice," starring Roger Pryor and Lucille Fairbanks.

France Has Most Castles

According to a census just completed France has more castles than any other country in the world—a total of 761. Most of them are in the Touraine district.

TOGETHER FOR THIRD TIME

In "Andy Hardy Meets Debutante," opening tomorrow at the Daly City theatre, Judy Garland makes her second appearance with the famous Hardy family and her third with Mickey Rooney. Judy was first introduced to the Hardys in "Love Finds Andy Hardy," and then scored outstanding success with Rooney in "Babes in Arms." In the new picture, ninth of the series, which has its locale in New York City, Judy shows Andy the town, with hilarious results.

Full-scale Guillotine In Theatre Lobby

"It really works. All we need now is someone to try it on," said Joe Hildreth, assistant manager of the Daly City theatre, as he and Manager William Smeltzer surveyed a full-scale guillotine on display in the lobby of the show house.

Hildreth constructed the guillotine himself, following closely the design of the original still in use in France's notorious Devil's Island. The display will remain in the lobby all this week and during the run of the latest March of Time release, "Gateways to Panama."

Showing the important role played by the colorful Caribbean island colonies in America's defense of the Panama canal, the March of Time film will be run locally on Sunday, Monday and Tuesday.

Albion Ross Addresses
C. S. F. Convention

Outstanding speaker at Saturday's C. S. F. conference on Treasure Island was Albion Ross, foreign editor of the San Francisco Chronicle.

Ross pointed out to the hundreds of students and teachers that Germany was reduced to a dictatorship through internal strife among her own people. He laid great stress on the fact that an "isolationist" policy alone would never help the United States retain peace. Only military strength and internal unity can achieve peace for the Americans, he concluded.

Members of Jefferson Union high school's C. S. F. chapter were hosts for the day to all Bay area high school scholarship units. The morning business meeting was conducted by Charles Yonan, graduate of Jefferson and life member of C. S. F.

HERE'S TO ADVERTISING

By Robert Keely
Advertising Manager

The birth of advertising probably occurred when Adam and Eve became sales-conscious and ate the apple offered by the wily snake. However, advertising has undergone rigorous changes since that time, all for the benefit of the public, and we might add, for the benefit of business in general.

Newspaper associations, manufacturers' groups and reputable publishing houses have placed a strict taboo on false or misleading advertising. When the consumer reads a newspaper ad today, he knows that it means just what it says. He knows that it is backed by the reputations of the advertiser and the newspaper in which it appears.

Every business with a host of friends and every product known for its quality, today enjoy their enviable positions with the buying public because of truthful advertising, soundly presented.

vertising, soundly presented.

The Daly City Record and the Daly City Shopping News are proud to help the great newspaper fraternity carry the standard of truthful advertising.

Here is a cross-section of Daly City businessmen's answers to our query, "How Does Advertising Pay You?"

Henry Warshawski, dry goods, 6340 Mission street: "We advertise in the Daly City Record and Shopping News because they afford the most effective means of reaching the public. Our styles are constantly changing, new merchandise is always coming in. Naturally, the more people we can tell about our store, the more will trade with us."

Bert Meritt, Meritt Electric Shop, 26 Hillcrest drive: "The Daly City Record is an economical way of reaching a lot of people every week."

Ed Byrne, Byrne Radio Store, 6241 Mission street: "We strongly believe in advertising. The more we advertise, the more friends we make. We've been advertising a long time. That's why we have so many friends."

William Smeltzer, manager, Daly City theater: "We have always maintained a consistent advertising policy. We play the finest pictures here and find that the best way to tell the most people about them is through the medium of the Daly City Record and Shopping News."

lani, and who knows maybe Dorothy Lamour and her famous sarong will be there, so you mustn't stay home. Get your lai and grass skirts and dole out those sea shells (35 is all it takes if you have a SBC) and get your little white ticket that will admit you to a "Night in Hawaii."

If you've never been to Hawaii this is your chance to get an idea what it would be like. The auditorium will be dressed up to represent a tropical garden in Hawaii, and every "Malihini" will be presented with some sort of a souvenir.

Were the students in Oscar Busch's chorus class surprised!—as they heard how they sounded to others when recordings were made of their voices, last week! "The purpose of this is to let the students hear themselves as others hear them and thus discover their problems and note their progress," said Oscar Busch.

These records will be kept and others made in the near future. At the end of the semester the records will be compared so the students can note their progress.

Students chosen for the first recordings were: Daisy Yonan, soloist; Norman Wiseman, accompanist; Louise Baciocco, soloist; Ruth Basso, accompanist; Betty Vuchilas, soloist, and Eugene McClain, accompanist.

Student
Government

At the regular meeting of the executive board, President Rigger thanked the various class presidents for their fine cooperation in his student body card rally, Thursday.

Betty Coen, entertainment chairman, asked for the help of the board to make the coming dance a success.

Under new business Bob Capps brought up the purchase of a blanket to hang in the gym. On this blanket, explained Capps, the names of the outstanding athletes in all the major sports will be sewed. A committee was chosen to find out more about the matter, and to bring all the data on the subject to the next meeting.

At the close of the meeting the president again told the board the advantages of the student body card and reminded them that—

News of the Jefferson School District

Woodrow Wilson Primary School

Children of the fourth grades are studying about San Mateo county. Many members of the class attended the fiesta at Bay Meadows. Inspired by the beautiful flowers of this county, pupils have made interesting reports on floral decorations.

Children in the high first and low second are busily engaged in learning about farm life. Most of their work centers about farm animals, their habits and contributions.

Children in the low third are studying about the workers in their community. The have decided firemen and policemen are the most important members, but that there are many others that are necessary, too, such as mailmen, storekeepers, bakers, milkmen and streetcar motormen and conductors.

"Exciting stories! Pictures to color! Reading! All by ourselves! Writing our own names. Working together—playing together. We have lots of fun in the low first grade," said the little tots, this week.

The boys and girls in the afternoon kindergarten are entering school for the first time. This semester they are weaving mats and soon will be making things for Hallowe'en.

Job's Daughters To Hold Food Sale

Bethel No. 26, Order of Job's Daughters, will sponsor a food sale Saturday morning at Milo's Market, 6315 Mission street.

Jefferson Sixth Graders Make Study Of Lights

Sixth grade pupils at Jefferson school are not taking the artificial lighting of today for granted. Their social science lessons have developed into a unit of work and play.

It is not an unusual sight to enter the classroom and see groups of children designing or examining historical miniatures, candles, or lamps that grandmother or grandfather has generously lent to the school while this unit of work is in progress.

From caveman times with natural light, fire and lightning, to tinder boxes, candles and lamps, the sixth grade has traveled on their light journey. They are aware that all these interesting factors are paving the way and leading to the study of the great electric-light triumph of today.

Eighth Grade Completes Study of Early Calif.

Eighth grade pupils of Jefferson school have just completed their first unit of social studies on the early history of California. During their study, spirited talks and discussions were given by members of the class, slides of California Missions were shown, and a film on Death Valley was presented, showing one of the routes that was used by the early pioneers on their way to California.

The colorful life in the mining camps, which are the Ghost Towns of today, was reviewed by Don Bortis, an eighth grade student.

The class was fortunate in having a member of the faculty tell about the experiences of her father who was a "Forty-Niner." She told of his coming from New Jersey to San Francisco by sailing vessel and of his early experiences here.

He was a member of the San Francisco Vigilantes' committee and also a member of the State legislature, which helped to frame California's constitution.

Several heirlooms, including a vigilante's club, old powder horns, and an old buckskin vest which the "forty-niners" used to carry their gold and valuables in, were examined by the children.

A MOLDED SALAD is a handy-Andy for many occasions

says Dorothy Greig

Of all the salad family, chilled molded salads are among the most accommodating. For instance, take this one. Turned out of a fancy mold and garnished with whole spiced peaches it sheds glory over a bridge luncheon table or looks handsome on a buffet supper table.

Molded in a loaf pan or plain bowl and sliced down, it's a treat for the family some Sunday night. Or again, for fun, it can be pressed into small molds (I use my muffin pan) and turned out on watercress as individual salads.

And its flavor! A deep, rich chicken flavor compounded from the chopped chicken and condensed chicken soup in it. Everybody likes chicken and so everybody will enjoy this chicken salad:

Molded Chicken and Vegetable Salad

- 1 can condensed chicken soup
- 1 egg, separated
- 2 teaspoons gelatine (softened in 3 tablespoons water)
- 3/4 cup chicken
- 1/4 cup whipping cream
- 1 tablespoon lemon juice
- 1/2 cup cooked carrots, diced
- 1/2 cup cooked green peas
- 1/2 cup cooked celery, diced

Sprinkle the two teaspoons of gelatine on the cold water and let it soften. Strain the chicken soup and heat it in the upper part of the double boiler. Grind the 3/4 cup of chicken, together with the rice, chicken and celery from the soup, in the food chopper, using the small blade. Then beat the egg yolk and add the hot soup to it. Cook it 3-4 minutes in the double boiler. Pour this hot mixture over the softened gelatine and stir until gelatine has dissolved. Cool, and when mixture begins to thicken, add the chopped chicken mixture, then gently fold in beaten egg white, whipped cream, lemon juice, diced cooked carrots, cooked green peas and diced celery. Pour into mold and set in the refrigerator until firm. Turn out on lettuce leaves and garnish with tomato slices, sprigs of watercress, or whole spiced peaches. Makes 5-6 portions.

Training Course For Scout Leaders

Special news for all Girl Scout leaders was received today from the National branch office of Girl Scouts in San Francisco.

A free training course will begin this month for all leaders and others interested in Girl Scout work. A huge assembly is scheduled for 10 a. m., October 11, in the auditorium of the Women's City Club building at 465 Post street.

The conference will last for two hours, with lunch in the cafeteria for those who care to stay. Regular classes will be outlined following the conference.

The course is expected to attract many leaders from this vicinity, including Mrs. P. J. Becker, Brownie Pack leader, 824 Templeton avenue, and Mrs. Lyla Eldrup, 146 Woodrow, leader of Troop No. 2.

Girl Scouts To Sell Fresh-Baked Cookies

"Simple Simon Met a Pieman Going to the Fair—"

You may not meet a pieman, but you're sure to meet a Girl Scout pretty soon. Before long every Girl Scout in Daly City will be offering her wares for sale—not pies, but fresh-baked cookies, just out of the oven.

This year's annual Girl Scout Cookie sale will be conducted October 26 and November 2. Cookies will be made especially for this occasion and will bear the official Girl Scout insignia on one side.

Proceeds of the sale will be used for the Christmas party and for the summer camping fund.

Two officials of seventeenth district were present, Mrs. Drisco and Mrs. Hilda Bruns, president.

Woodrow Wilson Elementary School News

Low seventh grade students are congratulating June Clark, Lorelie Gamba, Celeste Gray, Lois Clark, Kathleen Dawe, Tulio Picchi, and John Janssen. Last Tuesday, these classmates were given awards for their outstanding work in the Woodrow Wilson Glee club.

A new student, Andrew Lopez, was welcomed to the Woodrow Wilson elementary school by the student body. It was the general wish of the whole school that Lopez would like his new classmates and school.

LOW AND HIGH FIFTH

Billy Basso, Leroy Greenwood, Yvonne Hulme, Hazel King, and Louise Mjehovich visited Treasure Island during the week-end of September 20.

George Parker visited his aunt, Mrs. Wright, on her ranch in Petaluma, Sunday, September 22.

Gloria Ponce spent a recent week-end visiting in Lodi.

Recreation Centers To Have Fire Drills

Pointing out that safety for children is just as important during play-time as during school hours, WPA Recreation Director Bruce H. Boynton today announced the inauguration of regular fire drills at all local recreation centers.

First fire drill was held last Tuesday afternoon at the General Pershing school, where approximately 75 children participate in supervised play from 2:40 to 5 p. m. Directing crafts, games and dancing during these hours are Mrs. Clara Mitchell and Miss Marie Bell, leaders.

Fire drills will be started soon at other centers, Boynton said. Daly City WPA Recreation department is one of the first units in the State to sponsor regular fire drills.

Brownie Pack Welcomes New Members

Mrs. Frances Leach's Brownie Scout Pack welcomed two more members into their group on Thursday afternoon, Caroline Hughes and Mary Marable.

More Brownies will join again next Thursday, Mrs. Leach said. Brownies meet at 2:45 p. m. at Legion hall, 474 San Diego avenue.

The seven Brownies who graduated at last Thursday's fly-up ceremony have now joined Girl Scout troops, Mrs. Leach said. Some of them are now members of Mrs. Lucille Lemon's Troop No. 4 and the rest belong to Mrs. S. Eldrup's Troop No. 2.

Did You Ever See Your Newspaper Staff Hard At Work Behind The Scenes? Here They Are

Have you ever met your home-town newspaper staff? We don't mean socially—we mean behind the scenes with its shirt sleeves up, hard at work on the intricate business of putting out an edition of *The Record or Shopping News*. This is the week to get acquainted with the men, women, machines and materials that make possible your newspaper. Newspaper week is celebrated nationally this week, from coast to coast, and here is the story of your own paper.

Lots of you have been in to see us — bringing information for a story on your club; we've called on many of you for news. But what happens after one of the reporters picks up a story? Does it just appear in the paper by magic? Not much!

News varies from a local about Mrs. Brown's new baby to a top flight story on city government, but it all follows the same procedure. For example, let's follow the story of a band concert.

"Say, I hear there's going to be a band concert," remarks the publisher. "Get the story."

The reporter given the assignment calls from one to five people, checks data, verifies dates. Now she writes the story, picking out the salient information from the mass of details she has assembled.

Neatly typed, the story goes to the desk of the make-up editor. Here it is edited, copyread, if necessary even rewritten. Now it gets a headline. The make-up editor picks up a stack of stories, which have all been handled similarly. Then she goes into the composing room.

At the linotype the story is set in type. When the operator has a galley of type set, proof is pulled. Again our story returns to the front office. Now in type, it is proofread for typographical errors. Errors, if any, are corrected at the machine. The story can now be dropped into one of the paper's pages.

The make-up editor meets up with our story again. Since the concert is "big" news to this community it's at the top of the col-

umn on page 12. When the paste-ups of all the pages are completed, the mechanical department takes over. Now the actual type is dropped into the forms. Pages are justified, put on the press.

"Well, that's that," you say. Not yet. When the press run is completed, the paper must be folded, trimmed, prepared for mailing, for after all, you want your paper delivered on time by the postman tomorrow morning.

Two important phases of making your newspaper attractive and vital seldom come to the attention of the average reader. You only miss them when they're not there. One, the advertising brings you the story of values and specials offered by your local merchants. Here again, an ad doesn't just happen. The ad man sold it. He made a layout for the merchant. The back shop made up the ad following typographical and illustrative specifications.

Pictures do much to liven the news columns. As in every other phase of newspaper work, the process of getting them into the paper is complicated and expensive. First the photographer handles his picture assignment. He must develop and print it, making it the size needed for the paper. Now, off to the engraver goes our picture. When it comes back, it must be mounted. A caption must be written for it. It must be spotted in the paper.

Here at last is your paper. Simple to look at, easy to read—but quite a complicated business at that.

The Daly City Record

"Press" Theme for Week

Behind Men, Machines And Ideas

Behind a project as far-reaching as a community newspaper, there must always be a man with vision and with faith in the city.

In Daly City that man has been J. W. Marchbank. Realizing the major good a newspaper dedicated to the progress of this community could do, Mr. Marchbank has sponsored the continuous publication of The Record for more than thirty years.

In editorial and advertising policies, The Record and Shopping News are pledged to the sole purpose of promoting the interests that are vital to the development and welfare of Daly City.

The Record has always been a union shop. It now carries both the International Typographical and International Printing Pressmen's Union Labels.

Editorial Comment

As custodians of a Free Press, the publishers, editors and staff members of all American newspapers enlist all their forces to fight for recognition of this vital issue: A Free Press and Democracy are inseparable. Violate one and you crush the other. Silence one and you destroy the very foundation of the other.

Thanks to a Free Press, the American people are the best informed people in the world. Freedom of the Press is guaranteed to the people by our Bill of Rights.

Stand with the publishers of America's newspapers in the battle for democracy. With a Free Press as your most powerful weapon against dictatorial despotism, there shall be NO SURRENDER for America and Americans.

Joining the press of the nation, this week stresses the press to every man, woman and child. Our freedoms and liberties, the right to think, vote, work safe only so long as we are free to read, write and publish our newspapers. We know that of all our freedoms, the most important. We know that it guards every other

John J. Fahey the deep significance of the newspaper by which The Record carries that banner of significance. Albert H. Boynton, publisher of The Record. Boynton's job does a good job, a constant job, not only for local the prestige of the press of the nation.

If our press exempts justice and fair play to all, it will avoid that spiritual danger the deadly enemies of our free institutions. The forthcoming celebration, that our newspapers everywhere rise anew to the tremendous responsibilities which

7. Into your mailbox goes The Record. Daly City postoffice employees have always been cooperative in seeing that the papers are delivered on time. Here is Ernest Haeusslein, one of the local carriers.

8. "Just like a typewriter"—only ten times more complicated. Here is Harold Bradshaw, shop foreman, operating the linotype. He sees that work in the mechanical department progresses smoothly and rapidly.

9. Roland Petrocchi and Paul Kerr make up a page. Petrocchi is a full-time floor man; Kerr is part-time night operator for the paper.

10. On the press, at last. Frank Klingenfuss is shown feeding the paper into the big No. 1 Miehle, which prints the Record and Shopping News.

11. Now the papers must be folded, trimmed, prepared for mailing. Bill Gfroerer feeds the sheets into the folder; Petrocchi handles the insert board.

Tony Compagno, St. Mary's Star, Jefferson Graduate

Daly City sky-rocketed into the sports limelight, as Tony Compagno, former Jefferson Union high school grid star ran rampant against Gonzaga, to lead the St. Mary's Gaels to a 16 to 0 victory at Kezar stadium.

"Terrible Tony," as the newspapers and fellow gridders call him, was graduated from Jefferson Union high school in June, 1939. As a sophomore, Tony began his football career, playing first string from the moment he donned shoulder pads and helmet. He achieved the all PAL in his senior year.

Tony didn't limit himself to football at Jefferson. He brought home the honors in both baseball and basketball.

The local coaches say "He is one of the finest all-around athletes we have had the pleasure to work with. As long as he keeps his splendid sportsmanship, personality and sincere effort for the team's victory, that boy will go places."

9,000 Miles for a 5-Minute Show

Two groups of astronomers from the United States traveled 9,000 miles to Brazil to observe a five-minute eclipse of the sun which occurred yesterday. Dr. Charles H. Smiley of Brown university is shown with a new camera which uses mirrors instead of lenses to bend the light rays. He accompanied one expedition to Quixeramobim, a small town in Brazil indicated on the map. The other expedition was located not many miles away.

Birthdays of the Week

In the next few days two prominent Americans will observe their birthdays. Former Secretary of Agriculture and Vice Presidential Candidate Henry A. Wallace will celebrate his fifty-second birthday, October 7. Associate Justice of the United States Supreme Court Harlan Fiske Stone will celebrate his sixty-eighth birthday, October 11.

Alien Registration Program Continues

Alien registration is progressing at a brisk pace at the Daly City post office this week. Several hundred foreign residents of this area have already received their application blanks and others are urged to apply.

For the convenience of local aliens, a special registration representative, Armando Rodriguez, has been stationed at the Daly City post office. Rodriguez speaks French, Spanish and English, and understands the Italian language. He is well qualified to explain just exactly what information Uncle Sam desires.

All aliens must be registered by December 1 or be subject to fine and imprisonment. All information given postal authorities will be kept secret and in no way prove harmful to law-abiding aliens.

Speed Skating Popular Sport At Winterland

Speed skating, the most popular branch of the increasingly popular ice sport, will soon be a regular activity in the San Francisco Bay area.

George Wallace, international speed champion and member of the 1940 United States Olympic team, announced that regular meetings of the new Winterland Speed Skating club are held on Saturdays in the big ice rink at Post and Steiner streets.

Present are representatives of local colleges, sport clubs, and others, Wallace said. He plans to coach skaters for competition.

"There are already several dozen good speed skaters in the city," Wallace said, "and many others have expressed interest, especially since sufficient ice surface has been provided."

"Although speed skating was originally an outdoor sport exclusively, skating records show that many champions in speed skating have been produced in indoor rinks. We anticipate a great deal of interest."

Speed skating differs from "straight" skating in that the blades worn by the skaters are approximately twice as long as those ordinarily used. This provides a sweeping traction which allows the attainment of great speed on a rink the size of Winterland, Wallace said.

Aliens Must Report Change Of Address

Attention all aliens!

Are you moving or planning to move? If so, you must report your change of address immediately to the Department of Justice.

The Alien Registration Act of 1940 requires all resident aliens to report each change of address within five days.

All other aliens—such as visitors, students and others not admitted for permanent residence in the United States—must report their address every three months, whether they change their address or not.

Blank cards for notifying the proper authorities of change of address may be secured at the local post-office. All such notifications should be sent to the Department of Justice, Immigration and Naturalization Service, Alien Registration Division, at Washington, D. C.

A penalty of a \$100 fine or imprisonment is provided by law for failure to make the required reports. When reporting, it is necessary to give both the number and the name.

Introducing: A Fish Story

This is a "fish story" but it's strictly on the up and up. Joe Luciani of Colma just knows how to catch striped bass.

That fish weighed twenty-five pounds. Yes, you heard us the first time. Twenty-five pounds in good old U. S. avoirdupois.

Where: Salada Beach, Wednesday afternoon.

Joe didn't stop there either. He brought two more striped bass up out of the blue, each of them weighing eight and one-half pounds in their own right.

Three guesses: what have Joe and all his friends been eating for dinner last week?

Advertisers Live in

GLASS HOUSES

WHAT they promise in their advertisements, and what they deliver in their merchandise, are right there for all to see.

If they deliver what they promise, they make friends and steady customers. If not they make enemies, lose patronage and finally go out of business.

Those are the cold, hard reasons why honesty is the best policy—especially in advertising.

But the real fact is that advertisers as a class are humanly jealous of their good names. The trade-marks of manufacturers and the published recommendations of merchants are only accorded to products which they can offer you with confidence and pride.

You can trust the ads to lead you to sound values.
